

Talent Community Center Solar

Year Installed: 2017

Total Cost: \$67,186

Partners: True South Solar, Pacific Power's Blue-Sky Renewable Energy Program, Rogue Climate

System Type: 15.7 kW Solar Power System

Total Panel Area: 843 sq-ft

Panel Type: SunPower E20

Projected Annual Production: 21,346 kilowatt hours (kWh) or 85% of buildings annual energy demand

Average Daily Production: 65 (kWh)

25-Year Cost Savings: \$102,000

Other Conservation Efforts

- Stormwater detention system with water absorptive vegetation
- EV-charging station
- Solar-Ready
- Highly reflective roof shingles
- High efficiency HVAC system
- Energy management system (building functions only when people are occupying it)
- Larger windows for more natural light
- Low flow plumbing fixtures
- Drought tolerant plants
